

PERSONAL PROTECTIVE EQUIPMENT FOR CHEMOTHERAPY DRUGS

USP General Chapter <800> provides standards for safe handling of hazardous drugs (HD) to minimize the risk of exposure to healthcare personnel, patients and the environment. HDs include those used for cancer chemotherapy, antiviral drugs, hormones, some bio-engineered drugs, and other miscellaneous drugs.

USP 800 standards apply to all healthcare personnel who receive, prepare, administer, transport or otherwise come in contact with HD and all the environments in which they are handled.

USP 800's expected official start date is **December 1, 2019**. Make sure you are prepared!
